PRODUCTS AND SERVICES

Fishing gear

and general maritime supply
for vessels powered with 150hp and more

Adjusting fishing gear

and trawl doors
aboard for
all customers
in any regions

Hardware

- Shackles, swivels,
hooks, connectors,
chains, etc.
- Steel ropes,
net sounders cables,
weights

Co-products

- Fenders
- General
maritime
supplies

170+ pelagic trawls
annually

Description

Products and services	2
Fishing areas with Tralu Servisas gear	4
Pelagic trawls	
Wire load more than 15 tons	5
Wire load between 9 and 15 tons	22
Wire load less than 9 tons	48
Vessels with Tralu Servisas midwater gear	66
Bottom trawls	70
Cod-ends	72
Trawl belly models	73
Materials and maritime supply	74

Fishing Area

Target fish species
caught with Atlantica trawls

Atlantic NE

Faroe Islands, Iceland, Norwegian Sea,
Barents Sea, Svalbard, Porcupine,
mackerel, horse mackerel, herring,
blue whiting, pollock

Atlantic E. Central

Morocco, Mauritania, Senegal, Guinea,
Guinea-Bissau
horse mackerel, mackerel,
sardine, sardinella

Atlantic SE

Namibia, South Africa
horse mackerel, hake

Pacific NW

pollock, herring,
mackerel, lemonema

Pacific SE

Peru, Chile
horse mackerel, hake

Atlantic SW

Argentina, Falkland Islands
hake, southern blue whiting,
notothenia

Greenland

mackerel, herring

Irminger Sea

rockfish

Baltic Sea

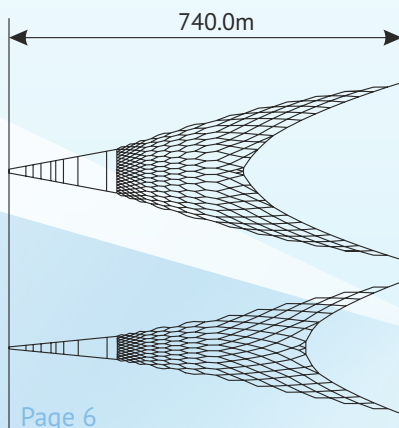

cod, sprat, zander

MIDWATER TRAWLS

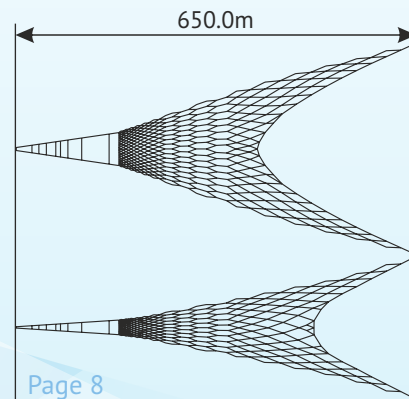

average wire load more than 15 tons
(speed - 4,5 knots)

Taurus® – 2600

PELAGIC TRAWLS Taurus

midwater trawl

Taurus – 710

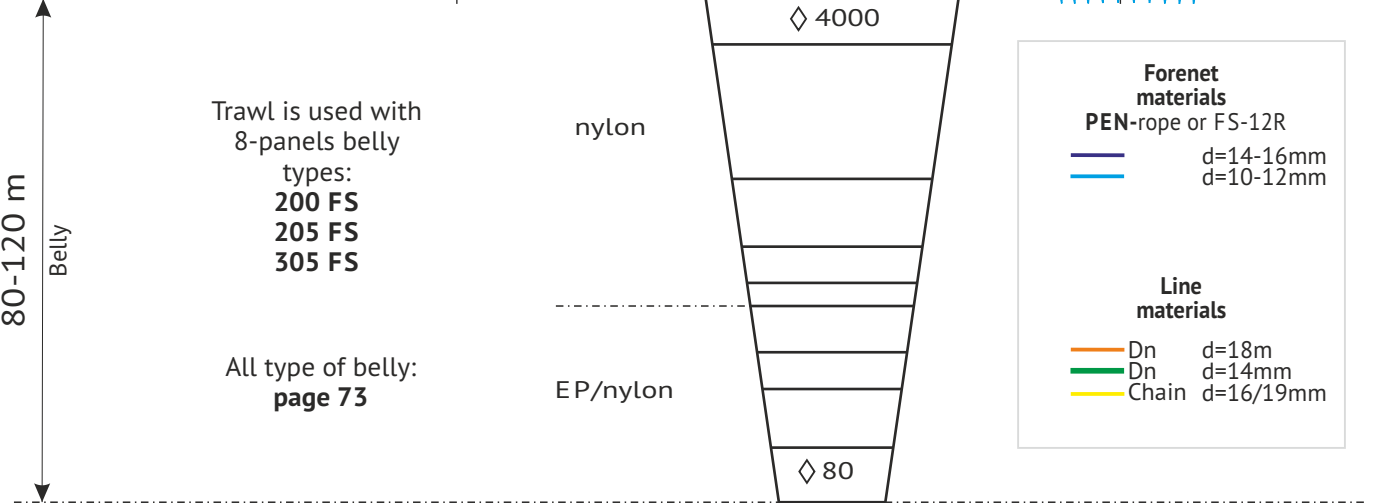

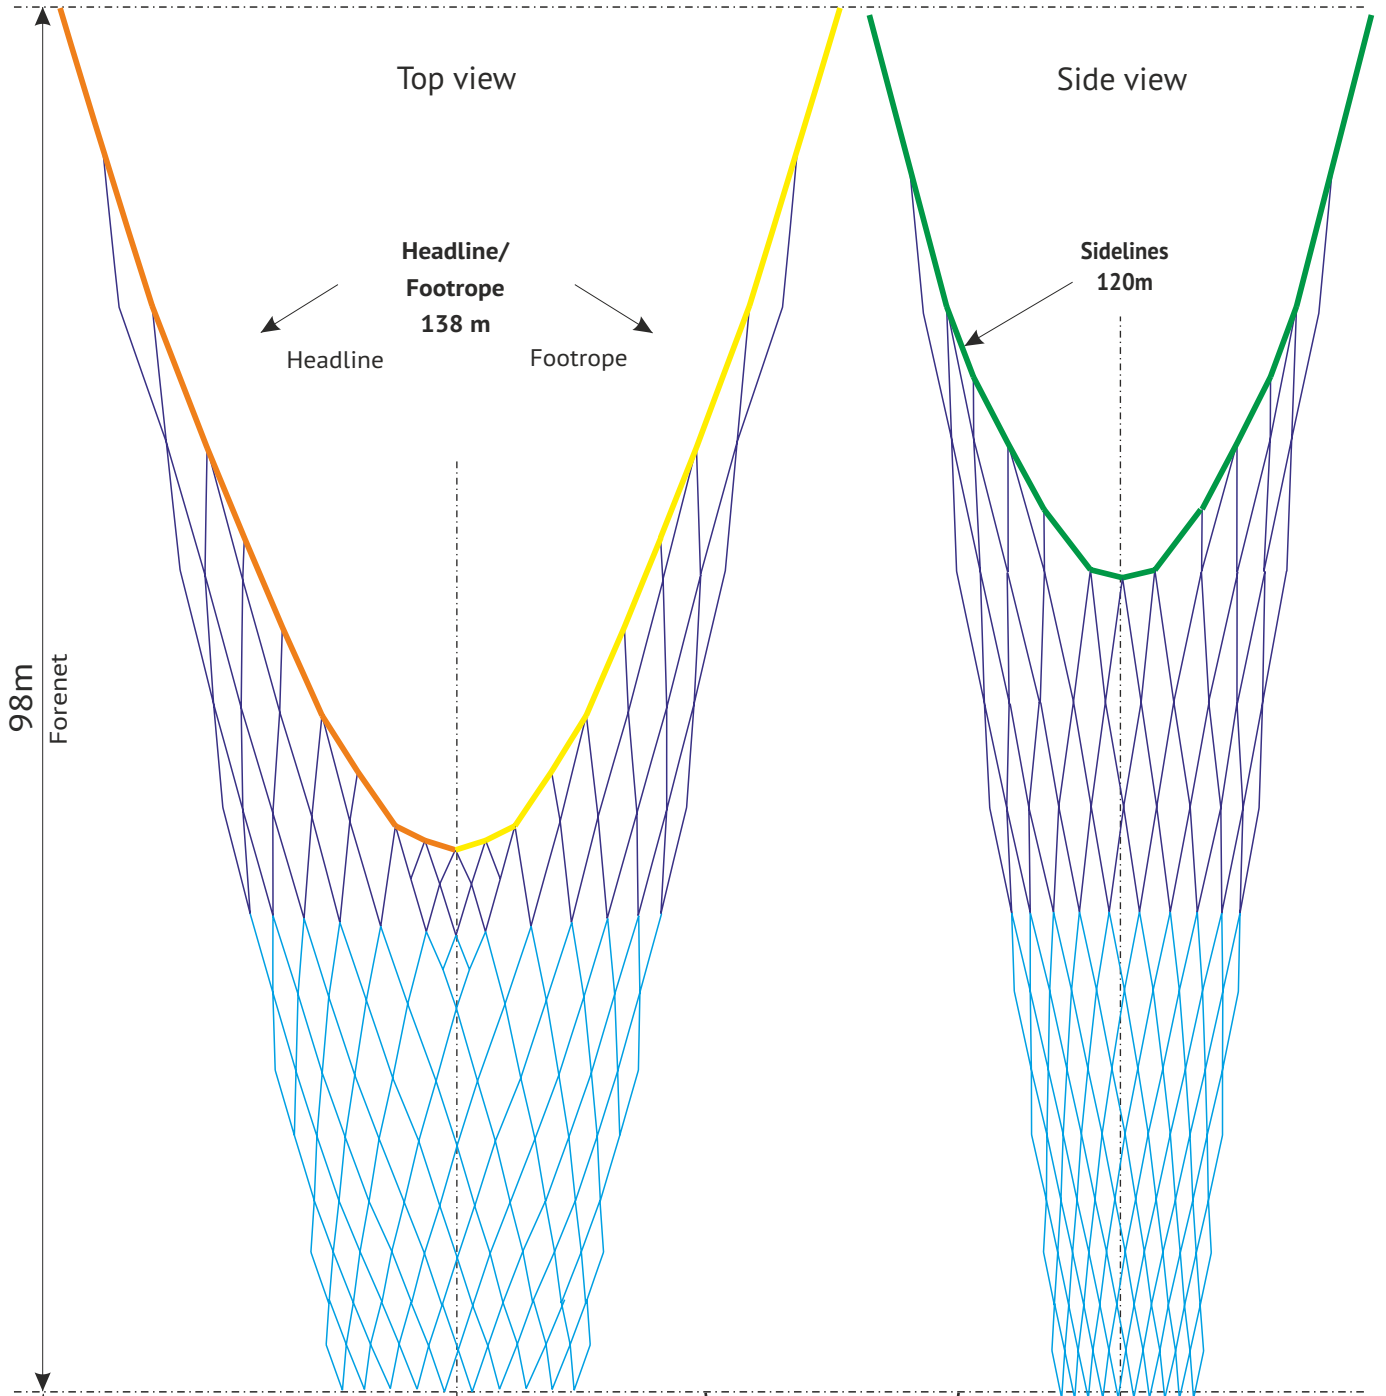

Circumference, m	710
Length of headline, m	138
Average tension on warp, tons	5,5
Average trawling speed, knots	4,5
Recommended doors, sq. m	6+
Average opening at the surface	
vertical, m	25
horizontal, m	60
Average opening in depth	
vertical, m	30
horizontal, m	65

Trawl is used by

Vessel	Power, hp	Fishing area	Target species
 Arctic	1800	Pacific NW	Pacific NW alaska pollock
 Taimania	2600	Pacific NW	

Circumference: 710m

PELAGIC TRAWLS Taurus

midwater trawl

Taurus – 640

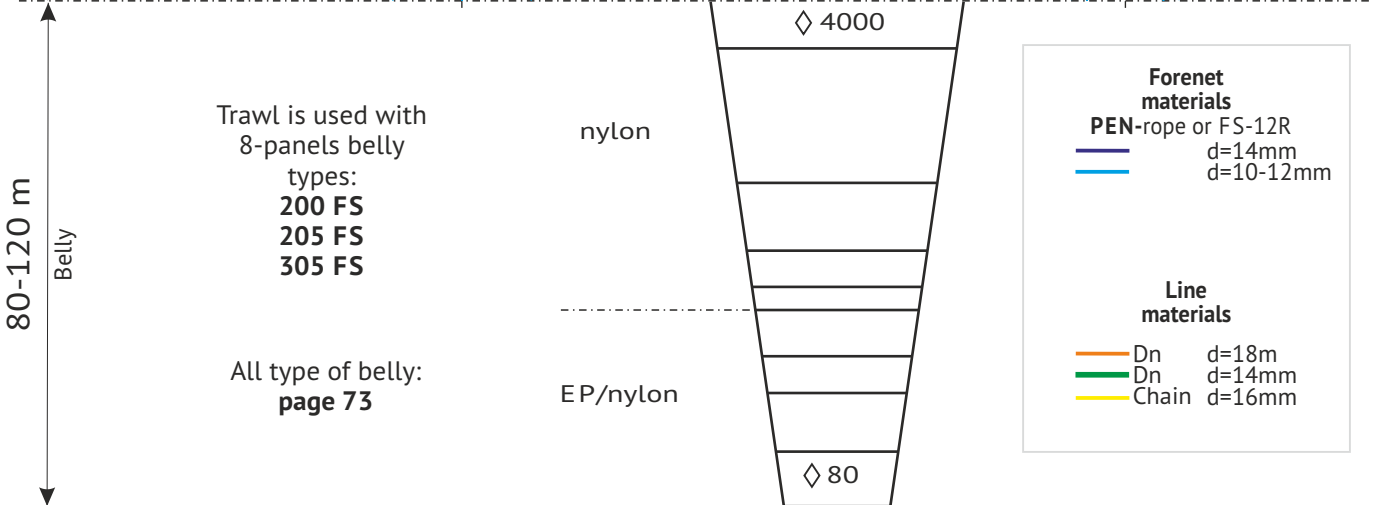

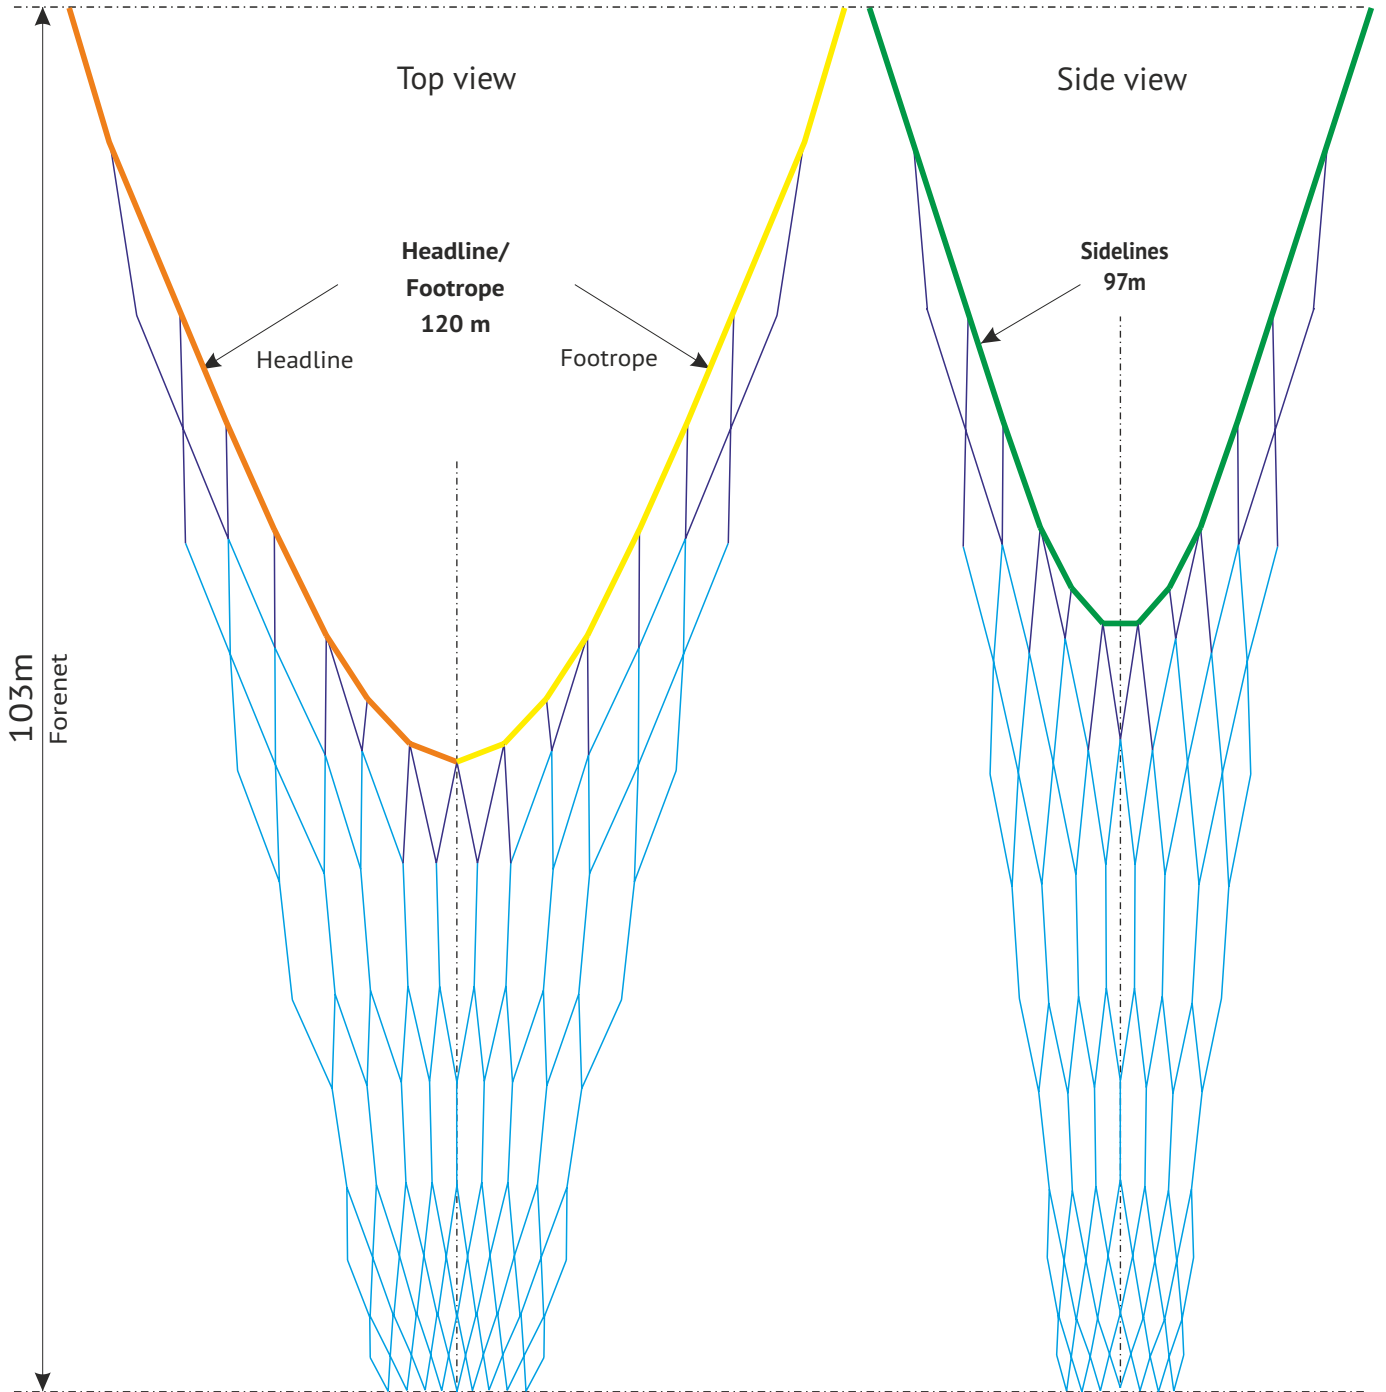

Circumference, m	640
Length of headline, m	120
Average tension on warp, tons	4,5
Average trawling speed, knots	4,5
Recommended doors, sq. m	6+
Average opening at the surface	
vertical, m	25
horizontal, m	55
Average opening in depth	
vertical, m	30
horizontal, m	60

Trawl is used by

Vessel	Power, hp	Fishing area	Target species
 Arctic	1800	Pacific NW	Pacific NW mackerel

Circumference: 640m

Trawl is used with 8-panels belly types:
 200 FS
 205 FS
 305 FS

All type of belly:

Bottom trawls form Tralu Servisas is used for more than 15 years in any world regions with excellent results

New model of bottom trawls Grenadier with unique 8-panels belly help to reach low drag and increase catches in any weather and ground conditions

CODENDS

for any types of pelagic and bottom trawls

By catch unload type

For ramp trawlers

For fish-pump trawlers

By cod-ends strengthening type

Netting riblines

Chain riblines

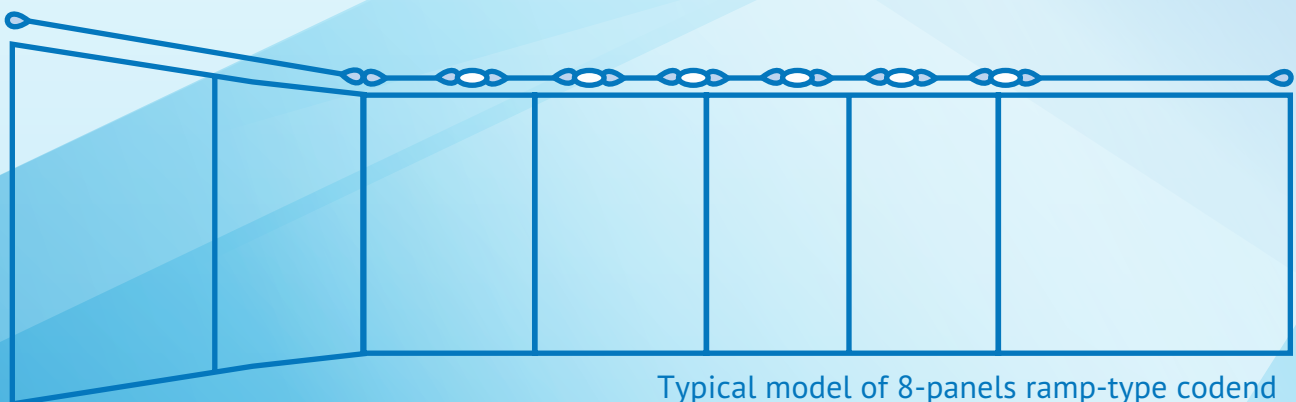

High strength synthetic ropes riblines

By construction

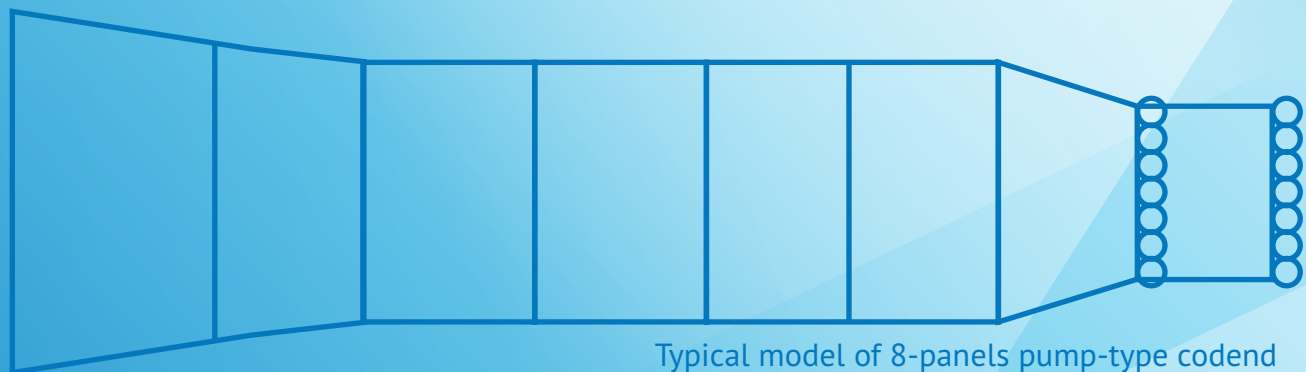

Four, eight, sixteen panels

Selective grids

Cod-end secure elements

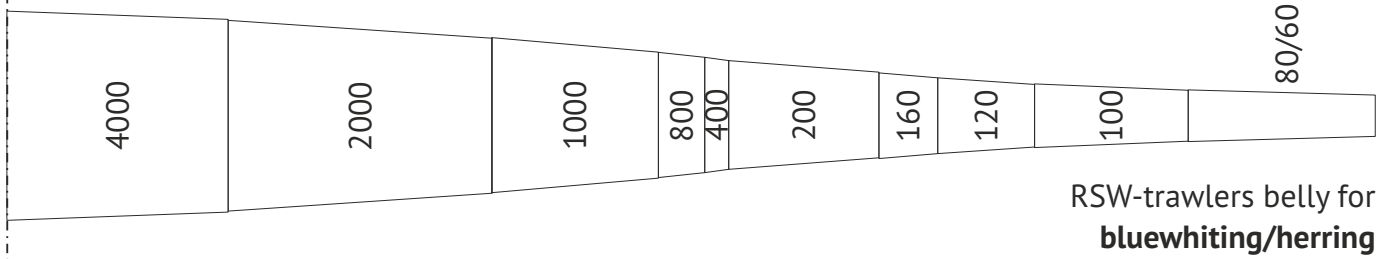

Typical model of 8-panels ramp-type codend

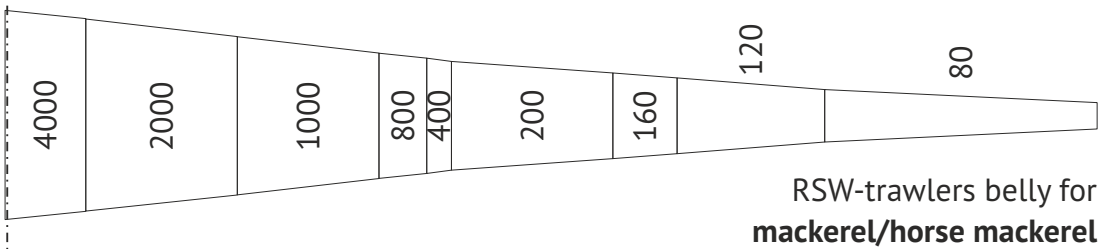

Typical model of 8-panels pump-type codend

**Any materials
and construction
for customers needs**

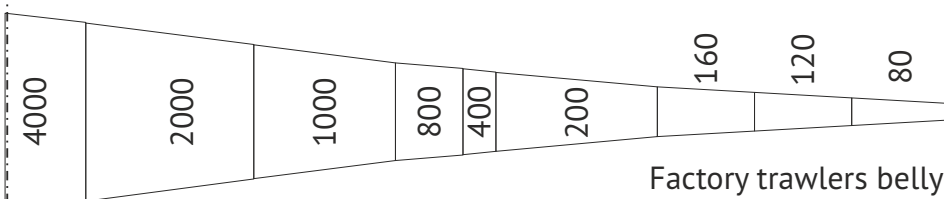

Belly model 401FS

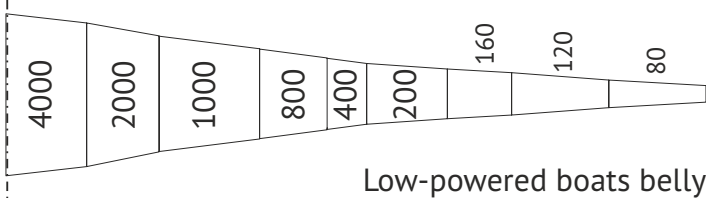

Belly model 307FS

Belly model 305FS

Belly model 200FS

MARITIME SUPPLIES

all around the world

Trawl doors

Any types for any conditions
Recognized standards and new technologies

Catch control systems

From leading manufacturers
Fine tune and training on board

Wires, ropes, chains

High quality for any needs
Best materials for best prices

Maritime supply

Swivels, hooks, quick links, rockhopper gear etc.
Any components and details, greases and materials

ROPES, TWINES AND CORDS

made by Fishing Service

Twisted nylon twine FS

3.0; 4.0; 5.0; 6.0 MM

Twisted nylon rope FS

10; 11; 13; 16; 19; 22 MM

Braided nylon twine FS 16

3.0; 4.0; 5.0; 6.0, 8.0; 9.0 MM

Braided nylon rope FS 12 R

10; 12; 14; 16 MM.

PEN rope

11; 13; 15; 19 MM

HMPE rope (Dyneema)

10; 12; 14; 16; 18 MM

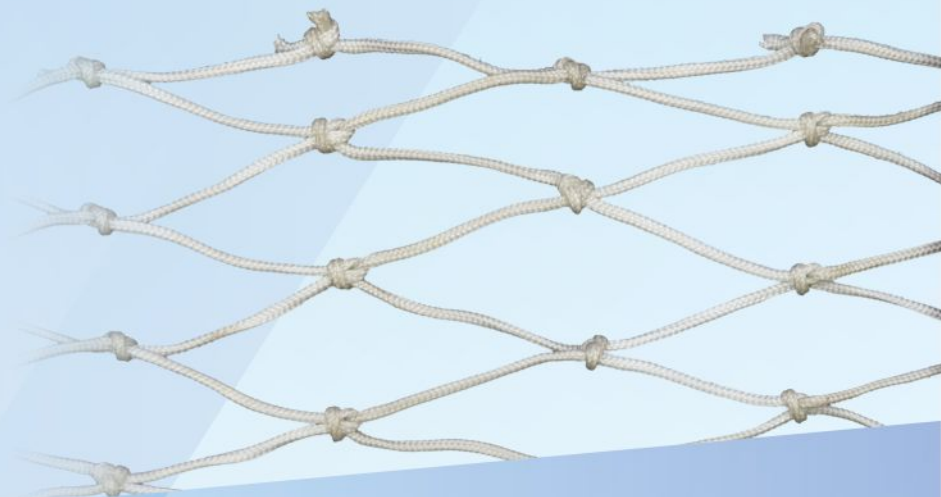

HMPE headlines Neptune

12; 14; 16; 18; 20; 22; 24 MM

NETTING

1- and 2-str netting

Any size and dimensions
